

cravings...

New Evolution is the new edition of Evolution, the first chandelier hoods collection launched in the world by Elica in 2005. The new high performing range, which includes Édith and Audrey, offers innovative shapes and finishings for multi-functional models which can guarantee air and light quality for the right atmosphere in every space. New Evolution is characterized by a high efficiency motor with perimeter aspiration and LED light, Édith, with its soft and rounded silhouette and the standing out Audrey, are both available in painted metal or polished steel finishings. available at: elica.com

colombina collection

designed by: Doriana e Massimiliano Fuksas

Massimiliano Fuksas and Doriana Mandrelli have been commissioned by Alessi to bring their considerable talents to the concept of the table in its entirety. Their objective is to introduce an incisive and contemporary interpretation to the classic rituals of the table. available at: alessi.com

h-line collection

designed by: Mark Zeff

"This collection is classic yet modern and very luxurious. The material has great weight; it feels wonderful in your hands and there is a real sexiness to it. Watermark took what I envisioned and articulated it perfectly. Their craftsmanship is exceptional which was so important to me" said Zeff. Shown in Natural Aged Brass. available at: watermark-designs.com
